[Experience](#) | [Projects](#) | [Skills](#) | [Education](#) | [Interests](#)

I am an enthusiastic and passionate Junior Full Stack Developer who was working at [Pottermore](#) where I gained hands-on experience in web development. Before this, I was undergoing training at Makers, one of Europe's leading and most selective web development bootcamp. At Makers, I learnt Software Craftsmanship, Object Oriented Programming, TDD and Agile methodologies. Prior to joining Makers, I gained an analytical mindset and a high attention to detail from my Accounting and Finance background.

## Experience

### Junior Developer at Pottermore(part of WWDFE) (July 2018 to Oct 2018)

- Web development in Javascript and React to create responsive web applications
- Exposure to Groovy, Terraform, AWS, Contentful etc
- Regularly checking web logs on Papertrail
- Part of a scrum team with 2 week sprints and daily standups for status updates .

### Career Break (Jan 2015 to Oct 2017)

- Relocated to United Kingdom
- Explored my interest in programming

### Junior Auditor at PRGX Pvt India Ltd (Dec 2013 to Dec 2014)

- Matching clients accounting history to discover and recover over payments, missed discounts and pricing errors.
- Analysing payment history to crosscheck if the allowances or payback were received from vendor, if not received then raising debit memo on behalf of the client.
- Preparing weekly reports to stakeholders.
- Identifying and conducting domain training/presentation for team members and handling their queries.
